

Strategic, Tactical & Technical Knowledge Where You Are: Intelligence Solutions

Using advanced technology, our extensive network of resources, and open source information, Paragon Risk Management provides reliable intelligence and analysis to support your informed business decision-making.

Global Incident Alerting

Filtering through the noise and highlighting the most relevant risk information for your business is our expertise. Our 24/7 team of analysts scour local and global information sources, screening for only the most pertinent data, to deliver validated, near-real-time alerts directly to your inbox.

Threat Assessments

Whether for travel safety, event planning, or workplace violence prevention, we specialize in providing comprehensive, tailored intelligence to help identify, assess, and mitigate potential threats to your business.

Open Source Intelligence (OSINT) Monitoring

Combining state-of-the-art tools and human interaction, we monitor social media platforms, websites, online discussions forums and message boards, and other OSINT information on the surface, deep, and dark webs to provide actionable intelligence for the protection of your assets.

Global Security Operations Center (GSOC)

GSOCs can integrate people, process, and technology across your enterprise to proactively monitor risks, manage day-to-day security operations, and coordinate efforts to respond to incidents and protect assets. From expert physical design assistance to full-time and part-time staffing models and 24/7 virtual support, we offer a variety of options.

GPS Tracking

Utilizing our relationships with equipment manufacturers and online service providers, we offer a wide range of field-tested GPS solutions when and where you need them. Leasing and purchase options available.

Paragon: A Trusted Partner

Paragon provides innovative, cost-effective solutions working to ensure the safety and security of the assets of the U.S. Government and its contractors worldwide. We have been recognized repeatedly for excellence in National Industrial Security Program (NISP) compliance, including the prestigious James S. Cogswell Outstanding Industrial Security Achievement Award, and are SAFETY Act certified.
