

## ***End-to-End Solutions to Safeguard Your Business*** ***at Home & Abroad***

We understand that the threats facing your business today are not the same as in past decades and we have built an infrastructure to support your ever-changing needs. Providing a combination of analytics, innovative technology and unparalleled experience, we identify, manage, and mitigate risk for the U.S. Federal Government and its contractors across critical infrastructure sectors.

To provide the greatest value, Paragon Risk Management's solutions provide flexibility and scalability to support a wide range of offerings, from temporary assistance during emergencies or one-time events to fully dedicated personnel.

Our decades of experience securing highly-sensitive, controlled facilities on a national, regional, and local basis, coupled with the power of our affiliate, Pinkerton, the industry's leading provider of comprehensive risk management services, makes us uniquely qualified and a secure supply chain partner.

As a full-service partner, Paragon Risk Management solutions blended with our uniformed security services and technology, provides an unmatched value and depth to your security program. With one call to Paragon, you gain access to our global network of resources, providing "boots on the ground" wherever and whenever you need them.

# OUR SOLUTIONS

## RISK ADVISORY

Our Risk Advisory solutions help to provide our cleared customers the where and when of future business threats. Our goal is to protect national security and your bottom line with evidence-based research, reporting, and mitigation techniques.

- Physical Security Risk Assessments
- Crime Risk Index Reports & Dashboards
- Program Design & Evaluation
- Training & Exercises

## SECURITY MANAGEMENT

We identify, manage, and mitigate risk for our clients. Our end-to-end Security Management solutions provide hands-on expertise securing your people, property, information, operations, and reputation.

- Enterprise Security Risk Management (ESRM)
- Facility Safety & Security
- Travel Risk Management
- Workplace Violence Program Management
- Global Supply Chain Risk Management
- Brand & Intellectual Property Protection
- Business Continuity & Crisis Management

## INDUSTRIAL SECURITY

Our Industrial Security solutions provide you with a trusted supply chain partner, offering a number of contract clearance management programs and the necessary professionals to support them.

- Security Practice Procedures
- Reporting Requirements
- Insider Threat Programs
- Security Reviews
- Facility Clearances (FCLs)
- Personnel Security Clearances (PCLs)
- FOCI Mitigation
- And More

## PROTECTION

Our business is high-level security. Your business is building and supporting our country's infrastructure. Our Protection solutions deliver comprehensive and cutting-edge security services for your unique needs.

- Executive Protection
- Residential Security
- Event Security
- Secure Global Transport
- Surveillance & Countersurveillance
- Undercover Operations
- Technical Surveillance Countermeasures (TSCM)
- And More

## EMERGENCY RESPONSE

Maintaining business continuity in today's world requires proactive and effective contingency planning. Paragon Risk Management utilizes our extensive networks and experience to help you before, during, and after an emergency or disaster.

- Armed/Unarmed Response Protection
- Emergency Evacuation
- Damage Assessments
- Unmanned Aircraft Systems (UAS or "Drones")
- Medical Equipment & Personnel
- Emergency Communications & Power Support
- Mobile Command Center Solutions
- Humanitarian Assistance

## INTELLIGENCE

With the support of our affiliate's proprietary programs, our extensive network of resources, and open source information, Paragon Risk Management provides real-time intelligence and analysis to support your informed business decision-making.

- Global Incident Alerting
- Threat Assessments
- Open Source Intelligence (OSINT) Reports & Monitoring
- Global Security Operations Center (GSOC)
- GPS Tracking
