

COMPREHENSIVE ASSET PROTECTION WHERE AND WHEN YOU NEED IT

Our business is high-level security. Your business is building and supporting our country's infrastructure. Our Protection solutions are built on decades of experience safeguarding the U.S. Government and cleared industry and tailored to meet your global needs.

For over 30 years, Paragon has supported vital homeland security missions and protected some of the Nation's most critical infrastructure. Today, we build upon that experience with the integration and deployment of highly specialized security risk management solutions to safeguard American assets at home and abroad.

Whether it is protecting people, property, information, or reputation from emerging threats or ensuring compliance with National Industrial Security Program (NISP) requirements, Paragon has the capabilities to meet your unique security needs.

With field offices in 36 U.S. states and an extensive global network of protection specialists in 90+ countries, we can put "boots on the ground" quickly and reliably.
